The Stork's Nest

The Stork's Nest provides families in Hamilton County with children age 0-3 to receive educational toys, books, and other items parents need for their children in their early years. Families who participate in an event provided by programs listed will receive one "Stork Buck". Once a family receives "Stork's Bucks" they will be able to visit the Stork's Nest at the Upper Des Moines Opportunities office located in Webster City. Here families can purchase educational items with their "Stork Bucks" with prices ranging from 1-8 "Bucks". Each item includes a card in English and Spanish explaining how to play with the child as well as what the child learns from the toy. Some of the educational items include sensory balls, mirrors, diaper bags, books, puzzles, and many more.
