# The Stork's Nest...

The Stork's Nest provides families in Wright County with children aged 0-3 to receive educational toys, books, and other items parents need for their children in their early years. Families who participate in an event provided by programs listed will receive one "Stork Buck". Once a family receives "Stork's Bucks" they will be able to visit the Stork's Nest at the Upper Des Moines Opportunities office located in Eagle Grove. Here families can purchase educational items with their "Stork Bucks" with prices ranging from 1-8 "Bucks". Each item includes a card in English or Spanish explaining how to play with the child, as well as what the child learns from the toy. Some of the educational items include sensory balls, mirrors, board books, stacking cups, and many more.
